

Wellbeing Workers, Tyneside Information for applicants

We are recruiting Wellbeing Workers to work within our successful team based at our office in Byker, Newcastle upon Tyne.

The posts are available on a full time or part time basis. When you submit your application, please tell us whether you wish to work full time or part time. (If part time, please indicate the number of hours/days you would be willing to work).

The postholders will deliver a range of services, projects and development work. They may work on more than one project at once, and on different projects over time.

Our services and projects are aimed at disabled people and their families, mostly people with a learning disability and autistic people.

Our services and projects include:

- Support for 'Speaking Up' groups where people gain confidence, learn about their rights, and work to raise awareness among the public.
- Support for people to influence and inform local community services, and health and social care services, including our Quality Checkers project.
- Support for social groups and peer support groups.
- Information advice and guidance.
- Helping people to make connections in their community: for friendship, activities, volunteering or work.
- Health and wellbeing education and awareness raising, such as cancer awareness, diabetes prevention, sexual health promotion.

Postholders will support the promotion of our work and organisation. Some of this work is with partner organisations. We welcome applications from people with relevant personal experience.

If you would like an informal discussion for more information about these posts, please contact Kate Chaplin, Deputy Chief Executive, at kate.chaplin@skillsforpeople.org.uk
