

## About Us

Skills for People is a charity which supports disabled people and their families. Since 1983, we have been working across Northeast England and sharing our ideas nationally. Our head office is in Byker, Newcastle upon Tyne. We are a friendly and caring place to work, offering flexible working and a supportive environment that encourages skills development and team working.

We aim to enable disabled people to:

- Lead fulfilling lives.
- Be included in the communities of their choice.
- Be strong, confident and able to speak up for themselves.
- Tell others about the challenges faced by disabled people.

Most of our work is with people with a learning disability, autistic people and family carers of disabled children who we help by:

- Giving information, advice, guidance and support
- Connecting people with others and with places and opportunities in their community
- Running health education workshops and healthy activities
- Bringing together people for fun, friendship and learning.

We work to improve how disabled people are treated and to raise awareness of the challenges they face.

Disabled people and their families are at the heart of our organisation. They shape our work as employees, volunteers, and leaders.

For all vacancies, we welcome applications from people with relevant personal and lived experience.
